

CAREER OBJECTIVE

Final-year Computer Engineering student with strong skills in Java Full Stack Development and AI-based systems. Experienced in building end-to-end applications using REST APIs, frontend interfaces, and intelligent features. Seeking internship or entry-level roles to learn and contribute.

WORK EXPERIENCE

Internship – Java Full Stack Developer (Project-Based) - • Internship

Dec 2024 - Feb 2025

SUMAGO Infotech Pvt. Ltd., Pune

Built a LinkedIn-style job portal with features like user authentication, profiles, job postings, and job applications using Java and Spring Boot.

Developed REST APIs and implemented role-based access for Job Seekers and Recruiters with MySQL database integration.

Designed responsive frontend pages using HTML, CSS, Bootstrap, and JavaScript to enhance user experience.

Gained hands-on experience in full-stack development, debugging, and deploying applications on Apache Tomcat.

EDUCATION

Bachelor of Engineering (B.E), Computer Science & Engineering

2023 - 2026

Jaihind College Of Engineering (Kuran)

Diploma, Information Technology

2019 - 2022

Government Polytechnic Awasari Kh

Percentage: 79.31%

Secondary (X), Maharashtra State Board Of Secondary And Higher Secondary Education

2019

Shriram Vidyalaya, Pimpalgaon

Percentage: 80.60%

PROJECTS

DreamRole – AI-Driven Job Recommendation and Resume Matching System (Patent-Published)

May 2025 - Sep 2025

- Designed and developed a full-stack AI-powered job recommendation platform that analyzes resumes, extracts skills, and recommends suitable job roles using context-aware compatibility scoring.
- Built a multi-layer architecture using React.js (Frontend), Spring Boot (Backend), Python FastAPI (AI/NLP services), and MySQL (Database).
- Implemented NLP-based resume parsing to extract skills, experience, and education, and calculated job–candidate match percentages using weighted and semantic similarity scoring.
- Developed JWT-based role authentication and dashboards for job seekers, recruiters, and administrators, supporting application tracking, recruiter job management, and candidate shortlisting.
- Integrated a voice-enabled assistant for job search and basic platform interactions using speech-to-text.

Patent: Published Indian Patent (U/S 11A) for the system architecture and intelligent AI-driven matching workflow
Application No: 202521120959

SKILLS

- | | | |
|-------------------------------------|-------------------------------------|--------------------|
| • Java | • SQL | • JavaScript |
| • HTML 5 | • CSS3 | • Bootstrap |
| • Hibernate ORM(Java) | • Spring Boot | • React |
| • Natural Language Processing (NLP) | • MySQL | • Git |
| • GitHub | • Maven | • Eclipse (IDE) |
| • Apache Tomcat | • Object Oriented Programming (OOP) | • REST API |
| • Microservices | • JWT | • FastAPI |
| • Web development | • Python | • Python Libraries |

EXTRA CURRICULAR ACTIVITIES

- Actively participated in technical project development and coding practice.
Regularly explored emerging technologies in AI, Java, and web development.
Engaged in self-learning through online platforms and documentation.

ADDITIONAL DETAILS

- Published Indian Patent (U/S 11A) for an AI-driven job recommendation and resume matching system, demonstrating applied artificial intelligence, scalable architecture, and hands-on experience in Java Full Stack Development and REST APIs.
