

Shubham Naykodi

4th Year B.E, ENT
Savitribai Phule Pune University, Pune

Phone : +91 – 7058409296

Email : shubhamnaykodi2004@gmail.com

LinkedIn : www.linkedin.com/in/shubham-naykodi-924239248

Address : Pune, Maharashtra, India

Education

2022-26	Jai hind College Of Engineering Kuran,Pune Bachelor of Engineering (B.E.) – Electronics and Telecommunication Engineering	
2022	12 th (Higher Secondary Certificate – HSC) Maharashtra State Board of Higher Secondary Education	72.83%
2020	10 th (Secondary School Certificate – SSC) Maharashtra State Board of Secondary Education	86%

Internships & Trainings

Nov-Dec'25	Embedded Systems Intern, Emertxe Information Technologies, Bangalore • Undergoing structured training in Embedded Systems Programming • Learning Embedded C, microcontroller fundamentals, and embedded hardware concepts • Participating in regular quizzes, evaluations, and hands-on exercises • Working on embedded applications relevant to Embedded / Electronics / IoT domains
Dec'24-Feb'25	Embedded Systems / IoT Trainee, Omegasoft Technologies, Pune • Received hands-on training in Embedded Systems and IoT fundamentals • Worked with microcontrollers (Arduino/ESP) and interfacing of sensors • Learned basics of Embedded C programming and hardware-software integration • Developed mini projects related to IoT and embedded applications

Academic Projects

Aug'25-May'26	Smart Helmet for Accident Detection and Safety (B.E Project) • Designed and developed an embedded smart helmet system to enhance rider safety. • Implemented accident detection using accelerometer and vibration sensors. • Used a microcontroller-based system for real-time signal processing and decision making. • Aimed reducing emergency response time and improving road safety through automation.
---------------	---

Technical Skills

Languages	C, C++, Python, Embedded C
Web Technologies	HTML, CSS, JavaScript, PHP, MySQL (for IoT & Embedded Systems)
Hardware & Electronics	Sensor Interface, Circuit Design, PCB Design, Microcontrollers (Arduino, ESP32, STM32)
Other Skills	Project Management, Problem Solving, Troubleshooting, Team Collaboration, Analytical Thinking, Time Management

Activities & Achievements

- **Robotics & Coding:** Participated in robotics competitions and hackathons.
- **Leadership:** Participated in technical workshops; led team projects and presentations.
- **Teamwork:** Actively volunteered and collaborated effectively in team settings.
- **Additional Skills:** Coding, Problem Solving, Communication, Presentation Skills.
- **Achievements:** Recognized for active participation in technical events and contributing to successful team outcomes.
